Education

Esa Unggul University — Information Systems(S1), GPA: 3.56   📅 Jan 2019 - Feb 2024

Yuppentek 2 Vocational High School — Software Engineering   📅 Mar 2016 - Oct 2019

Experience

PT. Bhinneka Alam Nusantara — UI/UX Designer   📅 Sep 2022 - Oct 2024

`UI Design` `UX Research` `Design System` `Usability Testing`

- Designed intuitive UIs for SIALAM mobile app and web landing page, improving user flow and accessibility.
- Built reusable design patterns and interactive Figma prototypes to align design and development.
- Produced developer-friendly flow diagrams and documentation to streamline implementation.
- Conducted usability testing and refined designs, reducing user confusion and improving task completion by ~25%.

Crooked Indonesia — Web Developer (Internship)   📅 Mar 2022 - Aug 2022

`HTML/CSS` `JavaScript` `PHP` `MySQL`

- Developed a responsive online catalog website using PHP (CodeIgniter) and Bootstrap, with structured backend functionality for efficient product data management.
- Designed and implemented database schemas to support dynamic product filtering and content updates.
- Collaborated with the frontend team and contributed to UI development, ensuring seamless integration between backend logic and frontend rendering.
- Completed the contract project ahead of its 6-month deadline.

Featured Project

F&B Self-Service App

`HTML/CSS` `JavaScript` `PHP` `MySQL` `Codeigniter`

Design and Development of a Self-Service Information System for Om Hut Parkopi Coffee Shop Based on a Website, More details at 🔗 https://github.com/Ndaru244/omhut
